

COVID-19 Re-Opening!

We will be re-opening soon!

The safety of our patients and staff is our top priority. As we make changes to our scheduling and office hours, please be patient with us.

Although the order for banning dental procedures will be lifted on May 29th, we will not begin to see *some* patients until June 1st. We plan to launch our re-opening in phases. Our front office team will be working diligently next week to make changes to our schedules and begin reaching out to patients.

Doctors will be in office starting June 1st.

Hygiene appointments will begin again starting June 8th.

Please be patient with us as we implement these changes in our office. We look forward to seeing your smiling faces again soon!
