

COVID-19 Update – Closed Until Further Notice

On April 1, 2020, a new executive order, order 2020-33, was signed extending the state of emergency.

According to the State of Michigan and the Michigan Dental Association, our order to halt nonessential and/or elective dental procedures is to remain in effect until the state of emergency is lifted. Currently, there is no end date for the state of emergency.

As always, should you need to be seen for an emergency, please call us at 810-664-4542 and listen to our voice message for details.

Thank you for your continued understanding during this time. Stay safe!
